

Saumya Jain

NJ, USA | (973)281-2451 | saumyain1994@gmail.com | [LinkedIn](#) | [Portfolio](#)

Proficient Sr. Software Developer with 5+ years of experience building scalable, high-performance web applications using Angular, TypeScript, and REST APIs. Expertise in cloud-native solutions (AWS, OpenShift), micro frontends, and agile software delivery. Proven record of leading UI teams, mentoring junior developers, and delivering enterprise-grade front-end architecture. AWS Certified Developer - Associate.

Experience

Virtusa Corporation (Client: PNC Bank) | Lead Software Engineer – Front End

Nov 2020 - Present

- Created and maintained 5+ Angular schematic libraries that serve as the foundation for most PNC's web UI applications, enabling scalable and standardized front-end development across multiple teams.
- Designed and developed RESTful APIs and server-side rendering workflows using Next.js and TypeScript, improving API response performance by 20%.
- Architected reusable UI components and enforced scalable code standards using Angular CLI, NgRx for state management, and SCSS for styling.
- Improved team productivity and code maintainability by 25% by mentoring junior developers, conducting code reviews, and implementing Git flow best practices.
- Built and maintained CI/CD Enterprise pipelines with Jenkins and Docker, integrating test automation tools like Jest and Karma to reduce production issues by 30%.
- Collaborated with cross-functional teams following Agile (Scrum) practices, achieving a 90% resolution rate for business-critical features.
- Authored internal documentation and delivered knowledge-sharing sessions to accelerate onboarding and ensure codebase consistency.

Mind strength Inc. | Full Stack Developer

May 2017 - Feb 2018

- Improved application performance by 25% by optimizing RESTful API interactions, reducing page load times, and enhancing data caching strategies.
- Developed and supported scalable enterprise applications using Angular 4, Java, Spring MVC, and PostgreSQL in an Agile development environment.
- Created dynamic front-end components with JavaScript and Angular and integrated them with backend services using SQL Server.
- Contributed to automated test coverage using Jasmine, Karma, and Selenium to improve application reliability and catch regressions early.
- Boosted front-end development efficiency by leveraging npm libraries and modular architecture principles for maintainable codebases.

Skills

- **Certifications:** AWS Developer- Associate (DVA-C02), Issued Sept 2024
- **Front-End Technologies:** Angular (2+ to 18), ReactJS, TypeScript, JavaScript, HTML5, CSS, SCSS, Tailwind CSS, NgRx, RxJS, Redux, Next.js, Webpack, Jest, Karma, Jasmine, Storybook
- **Back-End & Full Stack:** Node.js, Express.js, Java, Spring MVC, PostgreSQL, NoSQL, MongoDB, Firebase
- **Cloud & DevOps:** AWS (EC2, DynamoDB, S3), Jenkins, Docker, Kubernetes, OpenShift (OCP), RedHat, CI/CD pipelines, SonarQube
- **Tools & Testing:** Git, GitHub, Bitbucket, npm, JUnit, Selenium, ESLint, Visual Studio Code, IntelliJ IDEA
- **Project Management & Process:** JIRA, Agile/Scrum, SDLC
- **UX & Performance:** Responsive Web Design (RWD), SEO Optimization, A/B Testing, Accessibility (WCAG)
- **Soft Skills:** Mentorship, Collaboration, Code Reviews, Time Management, Communication, Critical Thinking

Portfolio & Projects

- **Multigame Platform:** React-based multi-game platform with modular layout, real-time routing, and support for interactive browser games.
- **Recipe Book:** Full-stack recipe book app with React, Java, MongoDB, and PostgreSQL featuring animated flip-book navigation and Firebase auth.

Education

New Jersey Institute of Technology (NJIT), Newark, NJ

May 2020

Master of Science, Computer Science

Mody University, Rajasthan, India

May 2016

Bachelor of Technology, Computer Science
